👤 Profile

Hi, I'm Fares. I'm a student at the Computer and Data Science department at Alexandria University. I'm passionate about web development and have experience with Front-end. I'm always learning new things and I'm excited to be a part of the web development industry.

📁 Professional Experience

Freelance [↗](#)

Full Stack Developer

Feb 2023 – Mar 2023

This web application was built using the MERN stack. The app is fully responsive and user friendly, and it can be easily scaled to meet the needs of a growing user base.

Alexandria, Egypt

Front End Developer

Jun 2023 – Aug 2023

I created the tickets website by utilizing the powerful combination of Next.js 13 and Tailwind CSS. This platform serves as a hub for both purchasing and selling event tickets. Additionally, it seamlessly interacts with APIs originating from Laravel, enhancing the website's functionality and user experience.

Education

Bachelor of Computer and Data Science, *Alexandria University*

Oct 2020 – Aug 2024

Alexandria, Egypt

I am a student in the Computer and Data Science program at Alexandria University. I am passionate about web development and have experience with a variety of technologies, including React.js and Next.js. I am excited to continue honing my skills in this area and believe that web development has the potential to make a positive impact on the world.

Projects

Portfolio, *ReactJS and Sanity* [↗](#)

Apr 2023 – May 2023

I created a portfolio website using ReactJS, Sanity, and TailwindCSS. The website showcases my skills and experience in web development. It is a clean and modern website that is easy to navigate.

Multi Step Form (Frontend Mentor), *ReactTS and Tailwind* [↗](#)

May 2023 – Jun 2023

I utilized React TS and Tailwind CSS to successfully complete this project. Moreover, I incorporated Zod and React hook form for validation, which added an extra layer of complexity. Additionally, I implemented the Confetti library to create a visually appealing success effect. Overall, this project proved to be quite challenging.

MovieDB, *ReactJS and CSS* [↗](#)

Nov 2022 – Nov 2022

This website allows users to explore a vast collection of movies and TV shows. It provides up-to-date information, including ratings, reviews, cast and crew details, release dates, and more. Users can search for their favorite films, discover new releases, and even create personalized watchlists. The website is powered by APIs and uses React.js and CSS for a smooth and interactive browsing experience.

Fiber Starter Files Template (Frontend Mentor), *ReactJS and Tailwind* [↗](#)

May 2023 – May 2023

I created a template using ReactJS and TailwindCSS. The template was provided by Frontend Mentor. It is a clean and modern template that is easy to use. I am proud of the work I have done and believe it demonstrates my skills in web development.

Manage Landing Page Template (Frontend Mentor), *ReactJS and Tailwind* [↗](#)

May 2023 – May 2023

The website is created using Tailwind CSS, focusing on a beautifully designed and responsive home page. Tailwind CSS is utilized to effortlessly style the components and layout of the page, resulting in a visually appealing and modern design.

Hit Restaurant Template, *Html, CSS* [↗](#)

May 2022 – May 2022

I designed and developed the Hit-Restaurant template using HTML, CSS. This template was created specifically for use by restaurants, cafes, and other food-related businesses, with a focus on providing a visually appealing and user-friendly design.

Color Generator, *ReactJS and CSS* [↗](#)

Dec 2022 – Dec 2022

The website is created using React.js and CSS, dedicated to the fascinating world of color generation. With the power of React.js, this website offers an immersive and interactive experience for exploring and generating colors.

Special Template, *Html, CSS and JS* [↗](#)

Apr 2022 – Apr 2022

I used HTML, CSS, and JS to design and develop a custom template for a website. HTML provided the structure and content of the template, while CSS was used to style and layout the content. JS was utilized to add interactivity and dynamic features to the template.
